

Become a Citizen Planner and help shape Tulare's future.

The City of Tulare has scheduled the fourth community workshop to assist in updating its General Plan. During this workshop, participants will have the chance to review and comment on the land use alternatives being proposed and provide input on the key policy choices that will be included in the General Plan. Please join us for this important workshop:

Date: Tuesday, November 14, 2006
Time: 6:00 to 8:00 PM
Place: Senior Center, 201 North F Street

Past Workshops

- Workshop #1 (September 27, 2005) brought together an enthusiastic and diverse group of Tulare residents who learned more about the update process and provided their insights about what they liked about Tulare and what they would like to see changed.
- Workshop #2 (March 2, 2006) provided a "snapshot" of current conditions and how existing trends might shape the future. Workshop participants then helped shape the future of Tulare by identifying new locations for homes, parks, employment centers, and shopping centers in the community.
- Workshop #3 (May 23, 2006) gave participants the opportunity for meaningful discussion of and input on the land use alternatives being considered for the General Plan Update.

Envision
Tulare
2030
