

# No to Highlands

Monday, February 19, 2007

I'm appalled at the Yuba County Planning Commission for allowing the Yuba Highlands housing project to go forward.

Yuba County supervisors better be careful on how they vote for or against the Yuba Highlands housing project; this vote could come before the supervisors in two to three weeks.

The Yuba Highlands project, with its 15,000 people next to Beale Air Force Base, could very well cause Beale AFB to close.

If that were to happen, the local economy would greatly suffer, and a whole lot of veterans would be angry.

The county supervisors have the ability to save Beale AFB and be heroes, or they can vote for the Yuba Highlands housing project and against Beale and be villains!

Dan Logue has a very good reason to be on good terms with Yuba County voters. He intends to run for the state Assembly in the next year. So if Logue is a smart politician, he will vote against Yuba Highlands, thus pleasing the veterans in the area and a whole lot of other voters.

The Brownsville chapter Veterans of Foreign Wars Post No. 10135 voted unanimously against the Yuba Highlands housing project.
