

Stop Yuba Highlands

I have been hiking in Spenceville Wildlife Area for a number of years and cannot imagine the impact of 5,100 homes near it (Yuba Highlands), driving through it, spilling their trash out the windows of their cars, killing critters as they try to cross what used to be a lazy gravel road that will have to become a fast three-lane (at least) highway to provide egress for those 5,100 homes, noise, pollution, as they take their sales tax dollars to Placer and Sacramento counties. This is a very bad idea – don't do it!

Spenceville Wildlife Area is precious and deserves to be protected from this type of encroachment.
